TA Comments Report for: **Stephanie Lackner**

---

**Q1 Please provide brief, specific and constructive comments on the TA's performance**

- Since the recitation does not help because of the material covered, I did not attend most of them although I wanted to. They were solving the previous problem set questions which their answers were already posted to courseworks before the recitation. They did not cover what was covered in the previous class properly.
  - She is an amazing TA. She has an exceptional ability to present the material clearly and effectively.
  - She has a talent to simplify complicated concepts.
  - Stephanie was always available and explained the concepts very well.
  - Recitations were not helpful. The way she explains course material only made it more confusing. Especially the review sections before exams were far from facilitating our understanding of course material. The organization of the recitations was very poor, she was jumping from one topic to another.
